KEENE'S PATENT MARBLE CEMENT
 forms an exceedingly hard and indestructible Stucco, which
 may either be prepared for paint, or finished in imitation of stone,
 by the addition of Portland or other stone dust.
 It is a cheap and efficient substitute in place of wood for shingles,
 and other purposes, and is the only one in which the
 K. checks the progress of fire and the attacks of vermin.
 Patented and sold by Messrs. J. B. WHITE and SONS,
 Millbank street, Westminster, and Steel street, Liverpool.

PORTLAND CEMENT.—J. B. WHITE
 and SONS, 22, Steel street, Liverpool, and 22, Steel street,
 London. The Builder, for accounts of experiments in the strength
 of Portland Cement.—These trials show that for the practical
 purposes of building, the compressive power of Portland Cement is
 that of Roman Cement in the proportion of four to one; that
 it is the most efficient material for turning the brick arch of Railway
 bridges and other works of a critical nature, while its firm adhesion
 to most, and some, of stone, as well as bricks, combined with its
 essentially hydraulic properties, adapt it for each purpose as the
 building of sea and wharf walls, and the lining of reservoirs, &c.
 Messrs. J. B. WHITE and SONS, 22, Steel street, Liverpool.

PORTLAND CEMENT. solely Manufactured
 by W. APPIN, Son of the Patentee. This Cement has
 been proved, for upwards of twenty years in the Thames Tunnel,
 to resist the action of water; it is superior in its compressive
 qualities, harder and more durable than any other description of
 Cement; it does not vegetate, oxidize, or turn green; nor is it
 affected by any atmospheric influence whatever, the climate render-
 ing it the best material for the purpose of building. It is the only
 Cement in which the action of frost and heat is not attended with
 any injury to the material. For all purposes of building it is applica-
 ble. The Proprietor challenges competition.—Orders received by
 Messrs. ROBINSON, APPIN, and Company, at their Manufactory,
 Northfleet, Kent, and their Wharf, Great Scotland yard, Whitehall.

**JOHNS AND CO'S PATENT STUCCO
 CEMENT AND PAINT.**—The attention of Architects,
 Builders, Master-builders, Merchants, and the Public generally
 is directed to the many advantages attached to this compound
 Material, which for its appearance, durability, imperviousness
 under resistance to frost or heat, and general economy, distinguishes
 it from all other cements and paints, and fully justify the com-
 mended it has received from the highest authorities in the art.
 It is the only material in which the action of frost and heat is not
 attended with any injury to the material. For all purposes of building
 it is applicable. The Proprietor challenges competition.—Orders
 received by Messrs. ROBINSON, APPIN, and Company, at their Manufactory,
 Northfleet, Kent, and their Wharf, Great Scotland yard, Whitehall.

PARIAN CEMENT. used as a Stucco,
 cannot easily be distinguished from Statuary or Parian
 Marble. It is the only material of that kind which is
 durable and does not crack, warp, or disfigure in any degree. The fine
 quality will be proved by the most delicate colors; it is adapted
 to imitate every color, fresco, imitation of marble, and the most elaborate
 embellishments. No person can be its setting or crystalline prop-
 erties, that the more quality, when applied to newly built or
 damp walls, may be immediately polished, painted, or papered
 and rooms rendered habitable before the materials ordinarily used
 could begin to be fit for habitation. It is the only material in which
 the action of frost and heat is not attended with any injury to the
 material. For all purposes of building it is applicable. The Proprietor
 challenges competition.—Orders received by Messrs. ROBINSON, APPIN,
 and Company, at their Manufactory, Northfleet, Kent, and their Wharf,
 Great Scotland yard, Whitehall.

MARTIN'S FIRE-PROOF AND ORNAMENTAL CEMENT.

CAUTION.—Messrs. STEVENS and SON
 have been notified by their friends and the public generally
 that certain persons have been endeavoring to pass off as
 genuine the material which they have been manufacturing and
 selling under the name of Martin's Cement. It is the duty of
 the public to be on their guard against such frauds. The
 material which is the subject of this notice is a compound of
 Portland Cement and other materials, and is the only one in which
 the action of frost and heat is not attended with any injury to the
 material. For all purposes of building it is applicable. The Proprietor
 challenges competition.—Orders received by Messrs. ROBINSON, APPIN,
 and Company, at their Manufactory, Northfleet, Kent, and their Wharf,
 Great Scotland yard, Whitehall.

**TODD'S PATENT METALLIC
 PROTECTIVE PAINT.** for Iron, Steel, Brass, Copper,
 Iron, Wood, and every description of Building. This Paint has
 been most severely tested for nearly four years, by men of great ex-
 perience, and has been extensively used under the superintendence
 of Architects, Engineers, and Surveyors of the greatest eminence.
 Orders to be addressed to Mr. T. TODD, Patentee, 21, Dean street,
 Dublin, London.

**EMERSON'S PATENT LIQUID
 CEMENT.**—This VALUABLE and ECONOMIC
 PAINT is used for the purpose of filling up cracks, and
 other defects in the surface of buildings, and is the only one in which
 the action of frost and heat is not attended with any injury to the
 material. For all purposes of building it is applicable. The Proprietor
 challenges competition.—Orders received by Messrs. ROBINSON, APPIN,
 and Company, at their Manufactory, Northfleet, Kent, and their Wharf,
 Great Scotland yard, Whitehall.

PATENT MINERAL PAINT.
 A brilliant black paint, invaluable as a coating for SHIP-
 SIDES and BOTTOMS, and for all kinds of WOOD or
 METAL work, and for the purpose of filling up cracks, and
 other defects in the surface of buildings, and is the only one in which
 the action of frost and heat is not attended with any injury to the
 material. For all purposes of building it is applicable. The Proprietor
 challenges competition.—Orders received by Messrs. ROBINSON, APPIN,
 and Company, at their Manufactory, Northfleet, Kent, and their Wharf,
 Great Scotland yard, Whitehall.

**CAUTION TO PURCHASERS OF FIRE-PROOF
 PAINT.**—The attention of Architects, Builders, and the Public
 generally is directed to the fact that certain persons have been
 endeavoring to pass off as genuine the material which they have been
 manufacturing and selling under the name of Fire-Proof Paint. It is
 the duty of the public to be on their guard against such frauds. The
 material which is the subject of this notice is a compound of Portland
 Cement and other materials, and is the only one in which the action
 of frost and heat is not attended with any injury to the material. For
 all purposes of building it is applicable. The Proprietor challenges
 competition.—Orders received by Messrs. ROBINSON, APPIN, and
 Company, at their Manufactory, Northfleet, Kent, and their Wharf,
 Great Scotland yard, Whitehall.
